

Call for Participation
CARDIS 2016

Cannes, November 7-9 2016

<https://2016.cardis.org>

Collocated with the LightCrypto workshop

On behalf of the CARDIS 2016 organization committee, we would like to invite you attend the 15th international conference on SmartCard Research and Advanced Applications Conference. CARDIS is more than 20 years old and has become the foremost international academic conference dedicated to research on smart cards and its applications but also covers topics such as embedded systems security and cryptography.

The 15th Smart Card Research & Advanced Application Conference ([CARDIS 2016](#)) will take place on November 7-9, 2016, at the "hotel Barrière le Gray d'Albion" at a few meters only from the famous "Croisette de Cannes", Cannes, France.

The program will consist of 15 papers and 3 invited talks, including:

"Three Views on IoT Security"

by Eric Vétillard (Prove & Run)

"Security outside the black-box model: Challenges and Countermeasures"

by Ventzislav Nikov (NXP)

"Breaking automotive remote keyless entry systems, or: Why your car is not a safe box."

by David Oswald (University of Birmingham)

This year CARDIS is *collocated with the Workshop on ultra low energy / power / latency cryptography (LightCrypto)*. LightCrypto will immediately follow CARDIS on November 9 and 10 in the same hotel. More information about LightCrypto can be found at:

<https://www.cosic.esat.kuleuven.be/events/lightcrypto/>

Description of the talks and (soon) the program: <https://2016.cardis.org/program.html>

Registration (**early bird deadline October 5th**): <https://2016.cardis.org/registration.html>

Hoping to see you in Cannes in November,

Aurélien Francillon, General chair
